Profile

Postgraduate Computer Science student at the University of Auckland with a completed Bachelor of Science in Computer Science and current PGDipSci study. Mainly focused on backend development, with strong interest in AI and machine learning. Experienced in team-based software projects involving backend systems, mobile app development, and database-driven applications. Currently seeking internship and graduate opportunities in software engineering and technology.

Education

Postgraduate Diploma in Science (Computer Science)

University of Auckland

Expected completion: 2027

Bachelor of Science in Computer Science

University of Auckland

Completed: 2026

Technical Skills

Languages: Python, Java, JavaScript, C#, SQL, HTML, CSS

Frameworks / Technologies: Node.js, Express.js, Flask, React, Flutter, Firebase, Prisma, JAX-RS, Jinja

Databases: PostgreSQL, MySQL, SQLite

Tools: Docker, Jira

Interests: Backend Development, AI, Machine Learning

Projects

BearLingo — Third-Year Computer Science Capstone Project

- Co-developed a gamified mobile app designed to support recent graduates through the job-seeking process.
- Built using Flutter and Firebase for cross-platform support on iOS and Android.
- Contributed to features including goal tracking, streaks, progress indicators, and gamified rewards such as points, badges, and achievements.
- Helped deliver a project that integrated gamification and AI-powered feedback to make job searching more engaging and skill-focused.

AUSS Official Website — Backend Developer

- Currently contributing to the development of the official University of Auckland Powerlifting Club website in a team of five.
- Focused on backend development using Node.js and Express.js.
- Used Prisma for database operations and PostgreSQL via Docker for data storage and management.
- Working on a real-world stakeholder project requiring collaboration, technical implementation, and backend problem solving.

Work Experience

Factory Worker / Packing Assistant

[Company Name] | [Dates]

- Packed goods accurately and efficiently in a fast-paced production environment.
- Maintained consistency, attention to detail, and productivity under pressure.

Store / Warehouse Assistant

Wholesale Club, Manukau | [Dates]

- Restocked shelves and organised goods in back storage areas.
- Supported stock flow and day-to-day operational efficiency in a busy workplace.

Further Study

Planning to continue into a Master's degree following completion of the PGDipSci.
